

TUBTARA®

ANTI -TURN Tubtara® Programme in development

Round shank, flat head Open / closed end
Steel, stainless , aluminium

High torque values

Easy to prepare

Easy to install

*Torque to turn value at least twice as high as that of the equivalent
round blind rivet nut*

Applications

All applications where hexagonal holes are not allowed or difficult to make

Authorised UK distributors for:

Important advantages

- very effective on slippery surface s
- no damage to the sur face (splined blind rivet nuts)
- ver y effective in hard material
- use of standard round holes , so no risk of cracks on the corner s (hexagonal blind rivet nuts)
- easy to install with a standard setting tool
- no problem to set automatically
- possible to combine different material of nut and sheet (welding nuts)
