

Gesipa's PolyGrip rivets feature a wide grip range enabling a single Polygrip to replace up to 3 conventional blind rivets. The PolyGrip's hole-filling rivet body expands within the application material for better joint integrity. The large blind-side closing head with locked mandrel core provides better support and improved sealing for weather resistance. PolyGrips are available in three head styles with Material choices including Aluminium/Steel, Steel/steel, Aluminium/Stainless Steel and A2-Stainless Steel.
