

Avdel® Monobolt®

The Avdel Monobolt is a multigrip structural breakstem fastener, one of the strongest and adaptable blind fasteners available. This high strength structural rivet provides multigrip capabilities. With a locked stem and a positive hole fill the monobolt is ideal for heavy duty applications, offering versatility, security and vibration and water resistance.

Monobolt is available in Steel, Stainless Steel and Aluminium and diameters of 4.8, 6.4 and 10 mm. They are also available in dome or countersunk head styles. Commonly used in high stress applications and is also able to fix together misaligned sheets or in irregular or oversized holes.

Key Features and Benefits

- Multi-grip capability
- High shear and tensile strength
- Good sheet take-up performance
- Visible lock for quick and easy inspection
- Excellent hole fill via rapidly expanded body
- Stem mechanically locked into body
- Wide choice of installation tools
- One fastener can be used to replace several standard grip fasteners
- Reduced fastener inventory and simpler stock control
- Compensates for irregular, oversized, slotted or misaligned holes
- Can stop sheet movement in non-standard holes
- Large gap closing capability
- Provides very strong, vibration resistant joints
- No damage, electrical problems or rattling due to loose stems
